# Tag Cloud

CORDYS

Two screenshots of the CORDYS Tag Cloud interface are shown.

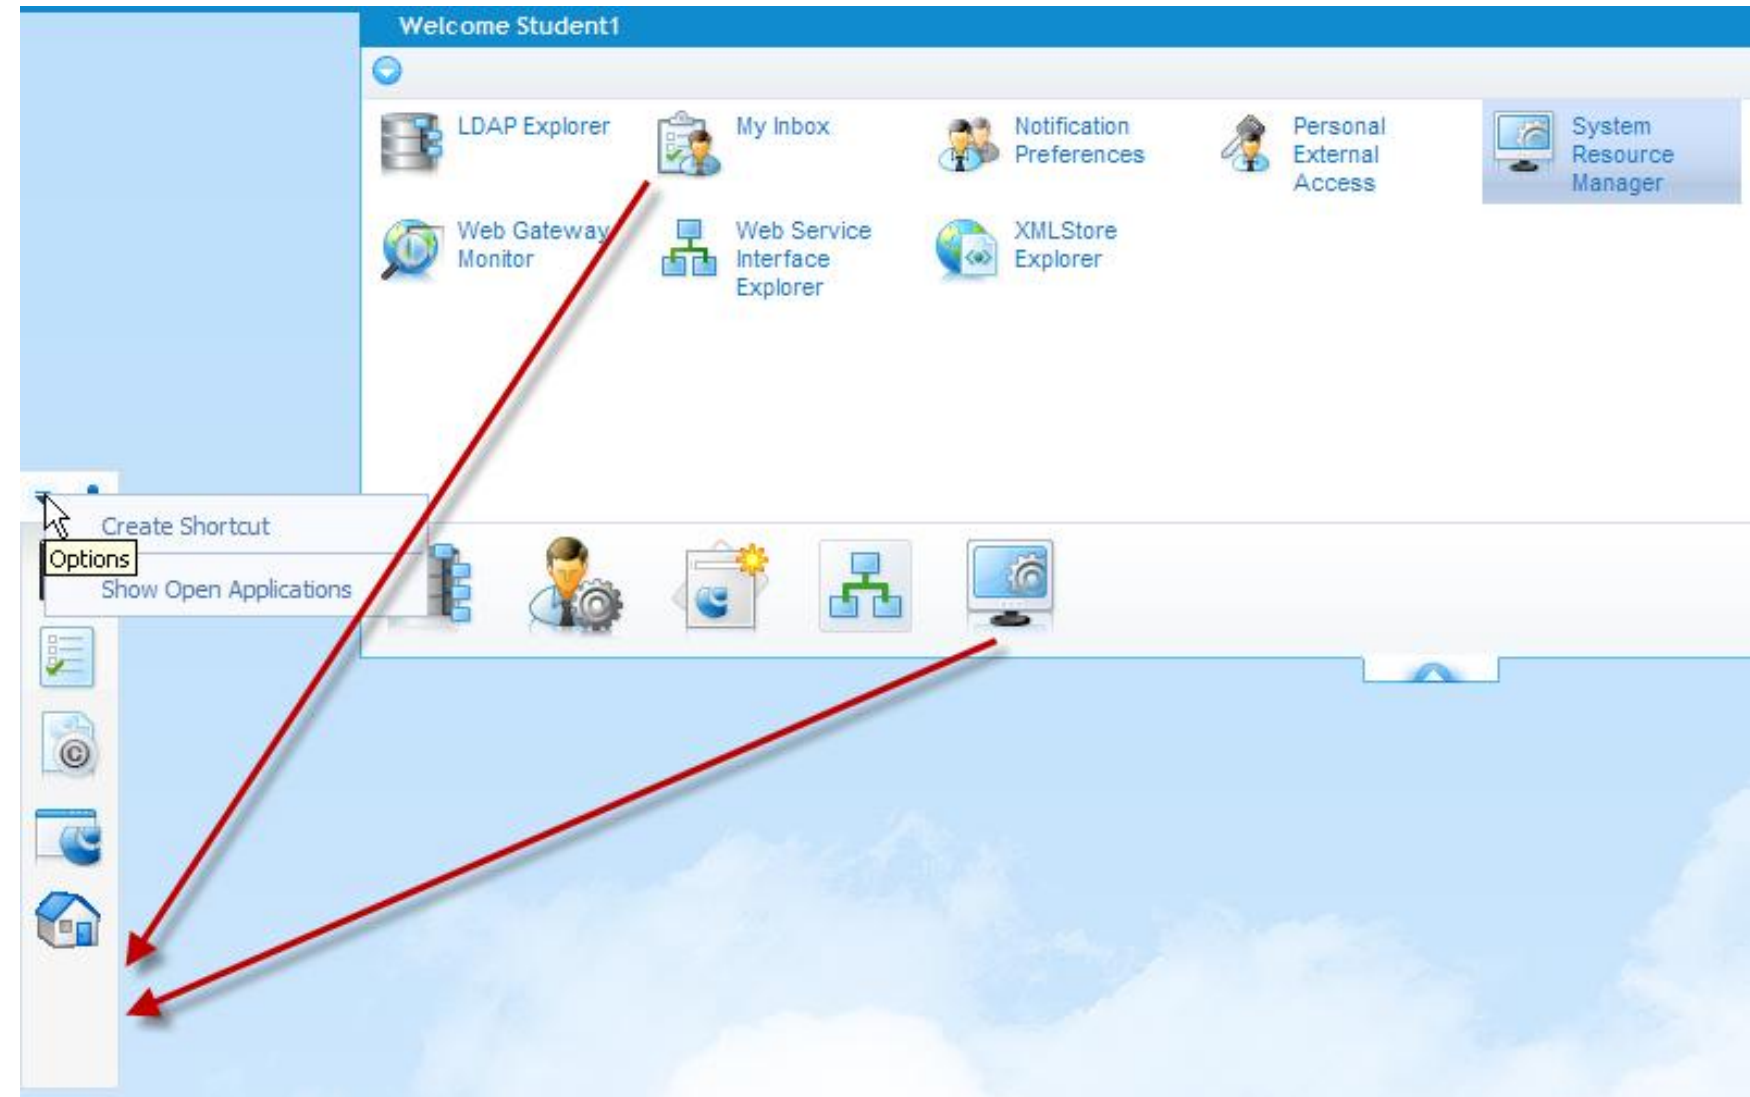

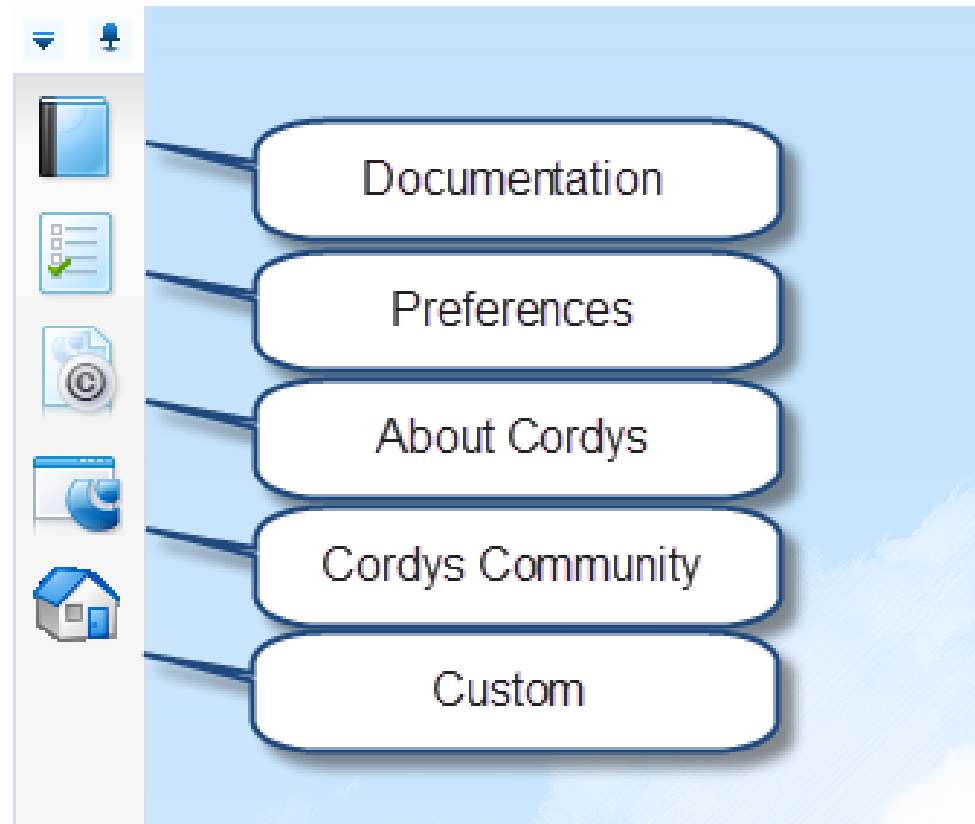

The top screenshot displays the 'Tag Cloud' window. The breadcrumb trail is: **Administration**, Application, Archive Processes, Auditing, **Business Processes**, CARS, CIM, Case Inbox, Case Management, CoBOC, Configuration, Database Metadata, Debug Tool, Deployment, Developer, Documents, **External Services**, FTP, Google Map, Governance, Inbox, Manager, **My Selection**, Notifications, PIM, Process Instances, Processes, Roles, Rules, Schedules, **Security**, Service Containers, **Test**, UDDI, User Provision, **Utilities**, Web services. A 'Show Tags' button is visible in the top right corner.

The bottom screenshot displays the 'Administration' tag selected. A callout box labeled 'Tag crumbs' points to the breadcrumb trail. The breadcrumb trail is: **Administration**, **Business Processes**, **Security**, Web services. The 'Tag Cloud' window also shows a list of tags including: Archive Processes, Auditing, **Business Processes**, CIM, Case Inbox, Case Management, CoBOC, Configuration, Deployment, Governance, My Selection, PIM, Process Instances, Processes, Roles, Schedules, **Security**, Service Containers, Test, User Provision, Web services. The 'Weight' checkbox is checked, and the 'Sort By' dropdown is set to 'Alphabetically'.
